5-year Old Boy To Host Fancy Dinner at Torres Homeless Shelter

Chico, CA- Local boy, Kieran Trent, age five, has watched his mother serve dinner at the Torres Shelter for years. After asking questions about the shelter, the people who utilize shelter services, and the things that people in transition often lack, he had an idea.

Kieran came to his mother with a "dream to make come true" of serving a restaurant style meal for the people who reside at the Torres Shelter. He said he wanted, "tablecloths, a menu, nice food, flowers, and dessert!"

Most importantly, he wanted to provide shelter residents with a meal served with dignity and love. Kieran's mother, Alexandra Trent, along with the entire family, will be cooking the meal with donated ingredients and help from the entire community. The family invites any and all volunteers to join them in making Kieran's dream a reality.
